

Last Nights Vice has brought more fans than any other local act to the most popular music venue in Saint Louis, MO. We are creating a buzz around town largely due to our innovative marketing campaigns, high-energy performances, and extreme work ethic.

Driving through Downtown Saint Louis and surrounding suburbs, you'll see our 3'x4' posters pasted in electric boxes and 1000's of full color full gloss handbills stuck under windshield wipers. You'll hear our songs during drivetime FM radio and our voices through megaphones at movie theaters and amusement parks. We've gone as far as creating a "speakerhead" costume with working sound to help promote outside of national and local concerts.

When you come to a Last Nights Vice show, expect a stage covered in intelligent lights, multiple 12" vertical banners, a thematic video backdrop, snow, bubble, and fog machines, confetti cannons, and a wall of custom made light boxes and amps. When you add all these features to a performance that showcases non-stop movement, 3 part harmonies, and a crowd singing every word, you realize you are part of something special.

We hope that you will take a few minutes to listen to the CD we've included. Thanks for your time in advance.

With warm regard,

Jordan Phoenix
